

Office Memorandum • UNITED STATES GOVERNMENT

TO : Executive
FROM : Deputy Executive
SUBJECT: Personnel Legislation

DATE: 2 November 1950

1. The attached letter from the Bureau of the Budget dated 31 May 1950 was written in connection with our request to repeal Section 9, Public Law 110, establishing three scientific positions in CIA at higher salary levels than those provided by the Classification Act of 1949. The Congress amended Section 9 to raise the base provision from \$10,000 to \$13,100, rather than simply repeal that section as requested by CIA and approved by the Bureau of the Budget.

2. The Bureau of the Budget feels that we should have some specific personnel policy legislation in view of our general exemption from existing legislation. The former Director promised to submit a draft of such legislation for action by the next Congress. Actually any legislation which would fit our needs would either repeat certain provisions of Public Law 110 or else say exactly nothing.

3. This question was brought up again recently by Mr. Its current status is that the Bureau of the Budget will draft proposed legislation for a personnel policy to cover all agencies who have current exempt status similar to ours. We will then be requested to concur or negotiate desired changes.
